Polymer Extrusions is committed to providing extruded rubber profiles that meet or exceed the requirements of our industrial and automotive customers.

We accomplish this through continuous improvement of processes, materials and the continued efforts and commitment of our employees.

ISO QUALITY POLICY STATEMENT
A History of Unlimited Potential - Custom manufacturing extruded rubber profiles and molded polymer products since 1994. Polymer Extrusions Inc. services a very diverse market. We pride ourselves on providing excellent service and OEM suppliers. Drawing from over 30 years of experience in the rubber industry. Polymer Extrusions is conveniently located in Canada’s industrial heartland in Southern Ontario, just east of Toronto. Our proximity to the United States, and access to the St. Lawrence Seaway has allowed us to become part of a very competitive global marketplace.

Polymer Extrusions is your full service extrusion company. Polymer can produce almost any profile shape in various elastomers. Polymer is a specialist in the manufacturing of extruded and molded seals, gaskets, bumpers etc. Our compounds are not limited to EPDM, SBR/Polyisoprene, Neoprene, Nitrile, Silicone, Viton and various close cell sponge in the aforementioned compounds.

Our close working relationship with our raw material suppliers allows us to be able to custom mix compounds for each application from the ordinary to the exotic. Our mixers will review your needs: physical properties, environmental conditions, colour and come up with the compound best suited to your demands.

MAJOR MARKETS SERVED

- Commercial / Industrial / OEM
- Architectural
- Construction
- Water Control
- Pipe Gaskets
- Container Gaskets
- Automotive
- Railway/ Mass Transit

Typical Products

- Dock Bumpers
- Tubing
- U Channel
- Z Shapes
- F Seals
- Screen Cloth Channels
- Garage Door Seals
- Weight Scale T Sections
- Sponge Profiles PSA
- Urethane Products
- Lathe Cut Washers

Superior Quality Extruded Rubber Products

Polymer is able to offer extrusions 1/16" to 18" wide
- Sponge and dense material capabilities
- Continuous extrusion or cut to length
- Secondary spliced gaskets
- High auto cutting and punching
- Taping with pressure sensitive adhesives and HATS.

OFFERING UNLIMITED POTENTIAL IN:

- Custom Design Extruded Profiles
- Molded Rubber Products
- Die Cut Gaskets
- Sheet Rubber & Rubber Sleeves
- Expansion Joints and Hoses
- Urethane Products
- Lathe Cut Washers

Secondary Operations - We will cut your extrusions to length from 0.30" and up. Our versa cutter allows us to maintain close tolerances on cut lengths for automotive spacers, bushings, discs, bumpers and more. Products can be cut on a 45 angle in lengths of 6" and longer. We also offer PSA taping and splicing. We are not limited to any form of cutting requirements and continue to progressively meet industry demands.
